

Introducing Joseph Ranseth

If you know that you have something of value to offer, but could be having a far bigger impact than you currently are, today will change your business - and possibly your life - forever.

Our keynote speaker is going to share with us the same blueprint that leaders such as Gandhi & Dr. King used to change the world, and how to apply those same principles to your business.

Joseph Ranseth has been helping individuals and organizations start movements for over 15 years. He has been a featured expert on national television including Fox News, CBS, CTV, CBC etc., in leading industry publications such as Advertising Age, and has been recognized several times by the Huffington Post for using social media to inspire the world.

A best-selling author, TEDx speaker and purpose-driven entrepreneur, Joseph is the founder of Vine Strategy and co-founder of Green Leaf Social Media. He also teaches digital strategy and online marketing in the professional program at the University of Winnipeg.

An active volunteer, Joseph is on the board of directors for the National Autism Association in the U.S. and several local charities in Winnipeg. His favorite volunteer role, however, is that of Big Brother.

Despite his digital footprint, Joseph lives on a small farm just outside of Winnipeg in a home that has no television or internet.

If you're ready to have a bigger, more meaningful impact in your business, Joseph will show you how to start a movement and take your message to the world.

Please welcome.... Joseph Ranseth....
